REPORT OF THE SUPERINTENDENT OF SCHOOLS

To Members of The School Board of Francestown:

Since the fiscal year closing June 1923 the School District of Francestown has dropped from the 178th town in the State in regard to total current costs per \$1,000.00 of equalized valuation to the 107th town and since the fiscal year 1925-26 it has dropped from the 124th town to the 107th out of a total of 244 school districts. In other words, in the year which closed in June 1929, 137 school districts exceeded your current costs for public education per \$1,000.00 of equalized valuation.

The standard of the schools is well known to you, and the same system of achievement testing and pupil adjustment is in use as was installed in 1926. Manifestly it would be unwise to decrease expenditures below the present figure but the emphasis for expenditure should be upon such factors as will improve both the physical condition of the children and the factors leading to greater interest in their subjects. Physical education is not as yet provided in Francestown, playground equipment could well be considered as the entering wedge for improved child care and installation could be cared for with monies at hand by cooperating with such individuals or groups as have the health of young children closely at heart.

As in a previous report we again suggest for serious consideration the installation of an adequate radio, particularly in view of the fact that definite educational programs of remarkable merit are already on the air and widely made use of by rural towns which desire to offer to their children identical opportunities provided in the city schools.

Francestown has made herself well known for its friendliness, its educational interest, and to each individual who has assisted or may assist in maintaining the schools and supporting the superintendent and his associates, I wish to extend sincere appreciation.

(Signed)

LAWTON CHASE
Superintendent.
